### DON LINO African

**T**wo years in the making, Don Lino African, much like the continent, is exotic, mysterious and not for the faint of heart. The design is a combination of African themes, including the bold geometrics of the Maasai people indigenous to the African Savanna.

Don Lino African exudes both flavor and body. It is blended using aged and exotic African and Caribbean select tobacco. Cigar masters handcraft Don Lino African to the most exacting standards in the cigar industry, using four-year old tobacco. The rolled cigars are aged for months at ideal settings to ensure correct harmonization of the different tastes. The result is a unique cigar, in complexity and flavor.
